Exercise IARD
Risk Management Plan

1. Introduction

Tasmania Police is currently developing specific training for general duties members as first responders to active armed offender incidents. This training is being evaluated through ANZCTC Exercise IARD.

Exercise IARD consists of three (3) phases:

1.1. Phase 1:

To train and practice a general duties policing response to a terrorist incident involving an active armed offender.

Phase 1 will be conducted over one day at a rural property and range at Kempton to explain, demonstrate and practice tactical methods and decision making considerations.

1.2. Phase 2:

To explain, demonstrate and practice a front line policing response to a terrorist incident involving an active armed offender.

Phase 2 will be conducted over one day at the UTAS Art School to provide an appreciation of tactical methods, considerations and decision making for first response to a terrorist incident involving an active armed offender.

A film company will be engaged to record all the exercise objectives for production of a training video for Tasmania Police IARD training.

1.3. Phase 3:

To test a general duties policing response to a terrorist incident involving an active armed offender.

Phase 3 will be conducted over one day at Anglesea Barracks to test the tactical methods and decision making of first responders to a terrorist incident involving an active shooter.

This risk assessment identifies all risks associated with each phase of the exercise.
1.4. Exercise participants will include sworn front line members of Tasmania Police. Members from the Operational Skills Unit, Professional Development, Operational Skill Instructors and Trainees will also participate in the exercise. Nominated staff from Anglesea Barracks will also participate in Phase 3.

1.5. EXCON will consist of members assigned to SRCTU.

1.6. As part of the development and conduct of this exercise, a risk review of the exercise venues has been conducted by SRCTU staff inclusive of all relevant site visits.

1.7. This review was conducted utilising the ISO 31 000.

2. **Scope**

The terms of reference for this review were to:

2.1. Identify the general risks associated with the conduct of Exercise ‘IARD’.

2.2. Develop risk treatment plans addressing each risk statement. All exercise staff and participants are expected to consider safety at all times and are deemed to be safety officers.

2.3. Individuals are expected to instigate immediate action should they identify any risk to the safety of others or to the further conduct of the exercise.
3. **Objectives**

The objective of this Risk Management plan is to:

3.1. Identify the specific risks as they relate to pre-deployment, deployment and post deployment phases.

3.2. Develop strategies to mitigate those risks by:

- reducing the likelihood of those risks occurring;
- reducing the consequences of those risks should they occur; and
- provide an efficient and effective framework to identify, prevent and respond to risk.

4. **Risk Analysis**

4.1. **Likelihood Matrix**

<table>
<thead>
<tr>
<th></th>
<th>Qualitative Measures of LIKELIHOOD</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Almost Certain</td>
</tr>
<tr>
<td>B</td>
<td>Likely</td>
</tr>
<tr>
<td>C</td>
<td>Possible</td>
</tr>
<tr>
<td>D</td>
<td>Unlikely</td>
</tr>
<tr>
<td>E</td>
<td>Rare</td>
</tr>
</tbody>
</table>
4.2. Consequence Matrix

**TABLE 2 - Qualitative Measures of CONSEQUENCE or IMPACT**

<table>
<thead>
<tr>
<th></th>
<th>Consequence</th>
<th>1 - Insignificant</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td></td>
<td>No injuries, low financial loss</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Little or no impact on the Exercise</td>
</tr>
<tr>
<td>2</td>
<td>Minor</td>
<td>First aid treatment, on-site release, medium financial loss</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Limited impact on Exercise, issue resolved at a local level</td>
</tr>
<tr>
<td>3</td>
<td>Moderate</td>
<td>Medical treatment required, on-site release, high financial loss</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Some impact on Exercise possibility of venue and/or scheduling changes</td>
</tr>
<tr>
<td>4</td>
<td>Major</td>
<td>Extensive/serious injury, off-site release with no detrimental effects, major financial loss</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Significant impact on Exercise, considerable changes to schedule and some objectives not met</td>
</tr>
<tr>
<td>5</td>
<td>Catastrophic</td>
<td>Death, Serious injury with permanent detrimental effect, high financial loss</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Exercise cancelled</td>
</tr>
</tbody>
</table>

4.3. Risk Matrix

**TABLE 3 – Level of RISK Matrix**

<table>
<thead>
<tr>
<th>Likelihood</th>
<th>1 Insignificant</th>
<th>2 Minor</th>
<th>3 Moderate</th>
<th>4 Major</th>
<th>5 Severe</th>
</tr>
</thead>
<tbody>
<tr>
<td>A (Very Likely)</td>
<td>E</td>
<td>H</td>
<td>E</td>
<td>E</td>
<td>E</td>
</tr>
<tr>
<td>B (Likely)</td>
<td>E</td>
<td>H</td>
<td>E</td>
<td>E</td>
<td>E</td>
</tr>
<tr>
<td>C (Possible)</td>
<td>M</td>
<td>M</td>
<td>H</td>
<td>E</td>
<td>E</td>
</tr>
<tr>
<td>D (Unlikely)</td>
<td>L</td>
<td>L</td>
<td>M</td>
<td>H</td>
<td>E</td>
</tr>
<tr>
<td>E (Rare)</td>
<td>L</td>
<td>L</td>
<td>M</td>
<td>H</td>
<td>H</td>
</tr>
</tbody>
</table>

**Level of Risk Legend**

- **E**: Extreme risk to conduct of exercise, or participant safety; avoidance or urgent action required.
- **H**: High risk to conduct of exercise or participant safety; avoidance or close management of issues required.
- **M**: Medium risk to conduct of exercise or participant safety; contingency planning required.
- **L**: Low risk to conduct of exercise or participant safety; acceptance/monitor, manage by routine procedure.

*(NOTE: All tables below are drawn from ISO 31:000 and adapted for this review)*
## 4.4. Risk Register – Exercise IARD

<table>
<thead>
<tr>
<th>Ref</th>
<th>Risk Statement</th>
<th>Likelihood</th>
<th>Consequence</th>
<th>Risk Level (Unmanaged)</th>
<th>Residual Risk Level</th>

**Exclusions – Not applicable to Exercise IARD**

- Electric Shock
- Fire Exposure
- Asbestos
5.1 Slip, Trip, Fall (general)

Applicable at: Slip, trip, fall (general)
Sprains/strains
Minor cuts and abrasions
Slippery surfaces (wet external areas), loose floor coverings,
building materials and freestanding furniture.
External garden beds present

Slip, trip, fall (general)
Sprains/strains
Minor cuts and abrasions
Specific:
Uneven ground. Internal and external stairs.
Slippery surfaces (wet external areas), loose floor coverings,
building materials and freestanding furniture.
External garden beds present

Current Risk

<table>
<thead>
<tr>
<th>Risk Assessment</th>
<th>Likelihood – Possible</th>
<th>Consequence – Minor</th>
<th>Result – Medium</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Treatment/Contingency Strategies

- Hazard inspections to be conducted prior to commencement of task
- Specific safety briefing at commencement of task
- Safety Officer identified
- Hazardous areas clearly marked and roped off
- Hazards repaired/removed
- First aid equipment on site.
- Transport and driver to be identified in case evacuation required.
- Area to be identified as SAP for Ambulance

Response Actions

In the event of any injury – OIC’s are to be notified who will in turn notify a member of EXCON preceding any communication with the words ‘NO DUFF, NO DUFF, NO DUFF’. This will alert EXCON staff to an out of exercise incident. Safety Officer to be notified ASAP.

Resource Requirements:
First Aid equipment to be located at the site

Monitoring/Review Responsibility
Safety Officer.

Managed Risk

<table>
<thead>

<th>Risk Assessment</th>
<th>Likelihood</th>
<th>Consequence – Min</th>
<th>Result – Low</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Unlikely</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Treatment/Contingency Strategies

- As per slip/trip/fall controls
- Sharp edges clearly marked and/or addressed by Safety Officer in briefing to participants.
- Inspection by EXCON and Safety Officer prior to use
- Briefing as to hazards

### Response Actions

In the event of any injury – OIC’s are to be notified who will in turn notify a member of EXCON preceding any communication with the words ‘NO DUFF, NO DUFF, NO DUFF’. This will alert EXCON staff to an out of exercise incident. Safety Officer to be notified ASAP.

### Resource Requirements:

First Aid equipment to be located at the site

### Monitoring/Review Responsibility

Safety Officer.

### Managed Risk

<td></td>
<td>Low</td>
</tr>
</tbody>
</table>

Accepted: (Inspector)  
Date:
5.3 Manual Handling Injury

Applicable to:

Phase 1  
Phase 2  
Phase 3

Manual handling injury  
Result of moving equipment/furniture.

Current Risk

<table>
<thead>
<tr>
<th>Risk Assessment</th>
<th>Likelihood</th>
<th>Consequence</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Unlikely</td>
<td>Moderate</td>
<td>Medium</td>
</tr>
</tbody>
</table>

Treatment/Contingency Strategies

- Inspection by EXCON and Safety Officer prior to use
- Briefing as to hazards
- Appointment of Safety Officer
- Provide instruction regarding the lifting of heavy items
- No unauthorized / inappropriate handling of role players
- Deploy appropriate human resources to lifting tasks
- Provide PPE as necessary i.e. gloves

Response Actions

In the event of any injury – OIC’s are to be notified who will in turn notify a member of EXCON preceding any communication with the words ‘NO DUFF, NO DUFF, NO DUFF’. This will alert EXCON staff to an out of exercise incident. Safety Officer to be notified ASAP.

Resource Requirements:

First Aid equipment to be located at the site

Monitoring/Review Responsibility

Safety Officer.

Managed Risk

5.4 Public Access To Site

Applicable to:  
Phase 2  
Phase 3

Public Access to site  
Unauthorised or unaccompanied access to exercise areas.

Current Risk

<table>
<thead>
<tr>
<th>Risk Assessment</th>
<th>Likelihood – Possible</th>
<th>Consequence – Moderate</th>
<th>Result – High</th>
</tr>
</thead>
</table>

Treatment/Contingency Strategies

- Inspection by EXCON and Safety Officer prior to use  
- All participants including EXCON are to wear appropriate identification/ tabards  
- EXCON to erect appropriate signage and barriers denoting police exercise underway  
- Property owner to notify EXCON staff of external parties on location at the time of the activity.  
- Public informed prior to and during exercise  
- RDS advised of exercise in order that information can be passed to persons concerned  
- Access/egress points controlled by EXCON  
- On site communication strategy for EXCON staff identified  
- Affected neighbours/businesses and site employees and visitors notified of police exercise prior to and during exercise

Response Actions

In the event of any injury – OIC’s are to be notified who will in turn notify a member of EXCON preceding any communication with the words ‘NO DUFF, NO DUFF, NO DUFF’. This will alert EXCON staff to an out of exercise incident. Safety Officer to be notified ASAP.

Resource Requirements:  
- Signs, bunting, tape  
- Letter drop providing notification of exercise

Monitoring/Review Responsibility  
Safety Officer.

<tr>
<th>Risk Assessment</th>
<th>Likelihood – Unlikely</th>
<th>Consequence – Moderate</th>
<th>Result – Medium</th>
</tr>
</thead>
</table>

Treatment/Contingency Strategies
- Check site and route prior to the conduct of activity for vehicle/road hazards
- Any identified hazards to be marked and included in any safety brief
- Speed limits to be adhered to as designated by EXCON
- All vehicles to be checked by drivers (FOPOWER) prior to being used in any activity
- All vehicle, whilst traveling to the Exercise venue are to obey all road rules.
- Licenced drivers only to drive vehicles (appropriate permits)
- Driver fatigue to be identified – rest if applicable

Response Actions
In the event of any injury – OIC’s are to be notified who will in turn notify a member of EXCON preceding any communication with the words ‘NO DUFF, NO DUFF, NO DUFF’. This will alert EXCON staff to an out of exercise incident. Safety Officer to be notified ASAP.
